

Trimmer

GEMOFOR
FOR A WORLD OF PERFORMANCE

Security and Precision

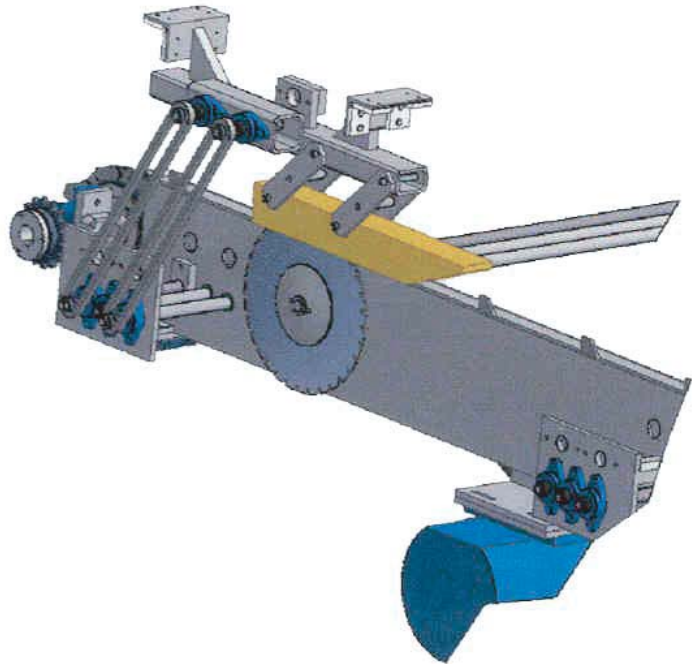

For a world of performance

GEMOFOR's **trimmer**'s lineal movement and double adjustment screws guarantee the saws' parallelism.

Adding a digital ruler for adjustments avoids measurements. To protect operators, lengthwise adjustment is made outside of the machine or is motorized.

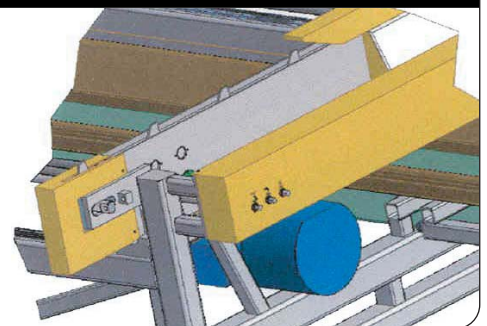

Advantages

- Single-exit, movable vacuum system.
- Option for motorized adjustments.
- Option for digital ruler.
- Push chain guided by a precision race to avoid weakening and bending of lugs.
- Lugs alignment by synchronization of drive sprocket.

Technical Specifications

- Adjustment performed outside of machine with precision screw.
- 14" saws, at up to 4000 RPM, quantity depending on requirements.
- 5 or 7,5 HP motor.
- Up to 120 pieces per minute.
